Before we can work up your FREE 3-D design & quote we will need some basic measurements. Don't worry, we can verify these measurements before you place your order.

- ✓ Step 1 - Draw an outline of the room where you will be installing new cabinets. This outline represents all the walls in the room as seen from above (also known as a floorplan).
- ✓ Step 2 - Draw two short lines to indicate the outside edge of the trim of each window and door in the room.
- ✓ Step 3 - Starting from the left and continuing clockwise around the room, label each wall segment, window and door with a single letter (A-T).
- ✓ Step 4 - Using a tape measure, measure each segment in the room (A-T) and record it in the spaces below.
- ✓ Step 5 - Draw boxes to indicate where you would like your appliances to be located in your newly designed space.
- ✓ Step 6 - Take photos of this completed document plus a few general photos of the space and send it in an email along with your full name to:
